British Championships Chess Coaching

The Chevannes Chess Academy will be providing training throughout the British Chess Championships for all juniors and women, with various levels of coaching available. The coaching will be professionally run with scheduled coaching slots for preparation and analysis after the games. Group sessions/lectures will also be available. **This coaching has been approved by the organisers as it is encouraging juniors to play and develop their chess.**

In order to secure your place, please email/phone me as soon as possible as there are very limited spaces for this coaching and they will get filled up very quickly. Please DO NOT make any payments when filling in the request form as your space will need to be confirmed before payment is made.

The levels of coaching are as follows:

A) GM Coaching – with the 2008 English Chess Champion, Keith Arkell (£120 per week/£200 per fortnight)

GM Keith Arkell will analyse your games after each round and give you tips on anything that you might be finding difficult throughout the tournament. Keith will only be available AFTER your rounds for analysis and help and will not be doing pre-game preparation

B) IM Coaching – with the current British and English Ladies Champion, Jovanka Houska (£100 per week/£180 per fortnight)

IM/WGM Jovanka Houska will prepare you for your games and analyse them after the round but will only have limited availability as she will be playing in the tournament herself.

C) WFM Coaching – with England International and professional chess coach Sabrina Chevannes (£100 per week/£180 per fortnight)

WFM Sabrina Chevannes is available for FULL support. She is around for the two weeks and will be fully dedicated to her students. She guarantees preparation and at least 1 hour analysis each day. There will be group coaching sessions scheduled for her students and will be contactable throughout the tournament for any help needed.
